## LOCAL PHOENIX BUSINESS EXPANDS ITS STAFF

---

### **ATL, Inc. Adds Staff in Phoenix, Arizona**

**Phoenix, Arizona – (October 2003)** – A local Phoenix consulting engineering firm, ATL, Inc., has expanded their workforce to include Frank Van de Wille as Operations Manager. Mr. Van de Wille has more than 12 years of both international and domestic experience in the civil and materials engineering field. He has extensive experience in the management of heavy civil and industrial projects and has been involved in all phases of construction including design, construction, quality assurance, commissioning and operation. He is also a recent recipient of the notable US Army Corps of Engineers Contractor of the Year Award.

“We are very excited to have Frank on our team.” Commented Frank Rivera, President & CEO of ATL, Inc. “Mr. Van de Wille will be a great asset to our firm and will help us continue assisting our clients with superior quality and efficient project management.”

ATL, Inc. is consulting engineering firm with a 34-year history. The company provides specialized expertise in civil and geotechnical engineering consultation, construction inspection, construction management, and materials testing services for soils, aggregates, concrete, asphalt, masonry, and structural steel. For more information about ATL, Inc.’s services, contact Frank Rivera at 602.241.1097.
